## **DETAILED ACTION**

### ***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

1. The primary reason for allowance of claims 12-20 is that applicant's claimed invention includes a method of manufacturing an liquid jetting head including the steps of bonding the second substrate onto the first surface of the first substrate with an adhesive agent, while forming a coating layer comprised of a resin material on an inner wall face of a region at which the first through hole and the second through hole are to be connected; and forming a communicating portion at which the first through hole and the second through hole are connected. It is this limitation, expressed in the claimed combination not found, taught or suggested in the prior art, that makes these claims allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Pertinent Prior Art***

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

(1) Takahashi (# JP 2000-103059) discloses the method for manufacturing of print head including a piezoelectric element formed in a pressure generating chamber; an adhesive layer formed in a corner part formed of the elastic membrane and faces constituting the peripheral wall of the pressure generating chamber (see Abstract).

(2) Murai (# US 2003/0058310) discloses a liquid head having passage forming substrate on which a pressure generating chamber communicating with a nozzle orifice formed, a plurality of piezoelectric elements are on one side of the passage forming substrate, and a penetrated portion for supplying a liquid to the communicating path is formed in a region of the vibration plate opposite to the communicating path by laser processing (see Abstract; figure: 2B).

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Manish S. Shah whose telephone number is (571) 272-2152. The examiner can normally be reached on 7:00am-3:30pm.
